The DEVICE consumes very little electrical power when in the detecting mode but uses more power when activating.

- * Voltage : 9VDC
- * Frequency : 2.4 GHz
- * Net Weight : 1.0 Kg, including AC TO DC adapter
- * Power Barking : 2.6 Watts
- * Size : 198(L) x 138(W) x 98(H) mm
: 7.79(L) x 5.43(W) x 3.86(H) in
- * Power Supply : AA size battery x 6 (not included) or
: AC TO DC adapter (Optional)
- * Range : 2 ~8 m

Regulatory statement

European standards dictate maximum radiated transmit power of 100mW EIRP and frequency range 2.400-2.4835GHz; In France, the equipment must be restricted to the 2.454 -2.4835GHz frequency range and must be restricted to indoor use.

CE Declaration of Conformity

For the following equipment: Intelligent Watching Dog (Animal Chaser)

CE 0984

Is herewith confirmed to comply with the requirements set out in the Council Directive on the Approximation of the Laws of the Member States relating to Electromagnetic Compatibility (ENC 2004/108/EC), Low-voltage Directive (73/23/EEC) and the Amendment Directive (93/68/EEC), the procedures given in European Council Directive 99/5/EC and 89/336EEC.

The equipment was passed. The test was performed according to the following European standards:

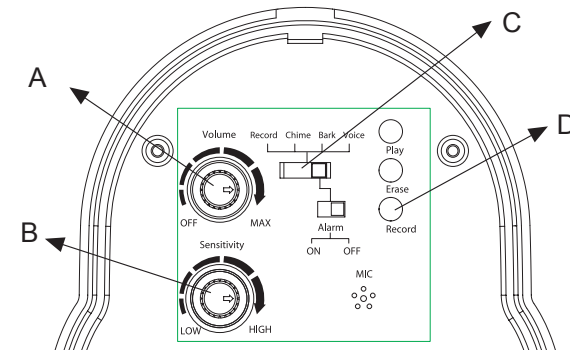

EN 300 440-2/-1 V.1.6.1 (2004)

EN 301489-1/-3 V.1.4.1 (2002)

Intelligent Watching Dog

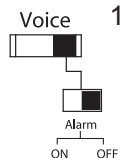

Thank you for purchasing this product, and it is made with four special functions as Built-in 360-degree detector / 4 different alarm sounds / Waterproof design.

Please read the manual carefully before using it and then keep this manual on file for future reference.

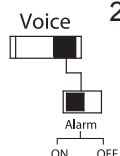

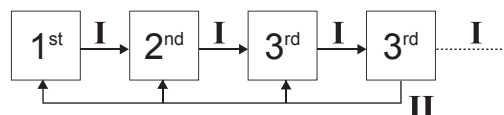

Function Switch & Illustration

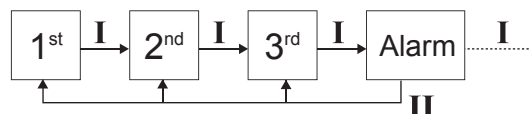

- A. **Volume**: from OFF to MAX by turning the switch from left to right.
- B. **Sensitivity**: from LOW to HIGH by turning the switch from left to right.
- C. **MODE**: 4-way switch
- **Record** - When the users record their own voices, make sure to switch to this position.
 - **Chime** - Playing the doorbell sound " Ding-Dong "
 - **Bark** - Playing the dog barking noise " bow-wow ".
 - **Voice** - Playing your own recording voice.
<When in Voice mode, there are 2 options>

1. When the switches are both on Voice positions, this product will play your three paragraphs of recording as showed:

2. When the upper switch on Voice positions and the under switch is on Alarm positions, this product will play your three paragraphs of recorded sounds plus alarm (3 min) sound as showed:

I - detect the second movement continually within 10 sec.

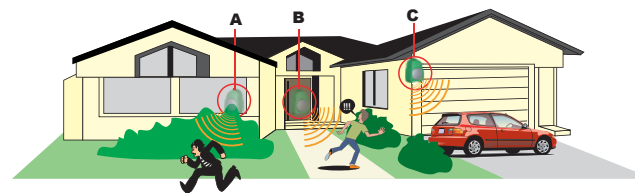

II - detect the second movement over 10 sec.

D. How to record

1. To adjust the switch to the "Record".
2. Push the "Record" button and hold it to record your own voice right after you hear "Beep".
3. Speak directly to the microphone what you would like to record for 8 sec, then release the button for the first paragraph.
4. Push the button and hold it again for your second and third paragraph. And you will have 8 seconds for each paragraph.
5. You can push the "Play" button to hear your recording sound and pushing the "Erase" button to erase them for other recordings.

<For example>

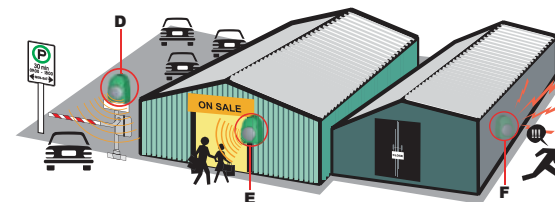

- 1st Who are you? / 2nd What are you doing here?
3rd Please go away, or I will call police to come.
